

## **Policy and procedures for privately owned weapons on base:**

\*No weapons are allowed on RAFB unless they are being transported to the Base Skeet range, hunting areas or the owner's residence on base. The only exception to this rule is government weapons used by military/civilian personnel in the line of their official duties.

\*Dorm residents/Lodging guests are not authorized to have privately owned weapons in their residency.

- Weapons owned by dorm residents/lodging guests must be stored in the Security Forces Armory.
- Weapons are secured in the armory in a separate safe away from military weapons.

Base housing residents must register their weapons. Upon signing the lease with Hunt housing the resident will receive an AF Form 1314 from Hunt Housing.

- The resident must list all weapons that will be stored in the on-base residency and have their commander sign the AF Form 1314.
- The resident must turn in the AF Form 1314 signed by their commander to the Security Forces Visitor Center within five days.
- Civilians residents must follow the same procedures as military residents. They may have their AF Form 1314 signed by their director.

\*If a base housing resident acquires additional weapons they must accomplish a new AF Form 1314 within 5 days of bringing the additional weapons into the residency.
